

The background features a series of concentric, semi-transparent circles in shades of purple and blue, creating a tunnel-like effect. A solid dark horizontal bar spans the width of the slide, positioned below the main title.

# Technical Standards Group (TSG) Update

Martin Simmonds  
TSG Chair

# What Have We Done?

Since the last Open Forum, in November 2019, NICC has not rested

...neither has Nick!

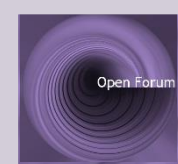

We have adapted

**140**

The number of Task and Focus Group meetings over the period

## Two new Task Groups –

- **Access Technology**

standardising ONT-OLT interfaces and fibre Alt-Net provisioning APIs

- **Common Numbering Database**

to Assess requirements for a CDB and assess existing solutions

The members' SharePoint site was restructured (Tecwork)

The Public Site was completely rebuilt (Tomango)

**During 2020 and 2021 NICC has published a number of NDs, including -**

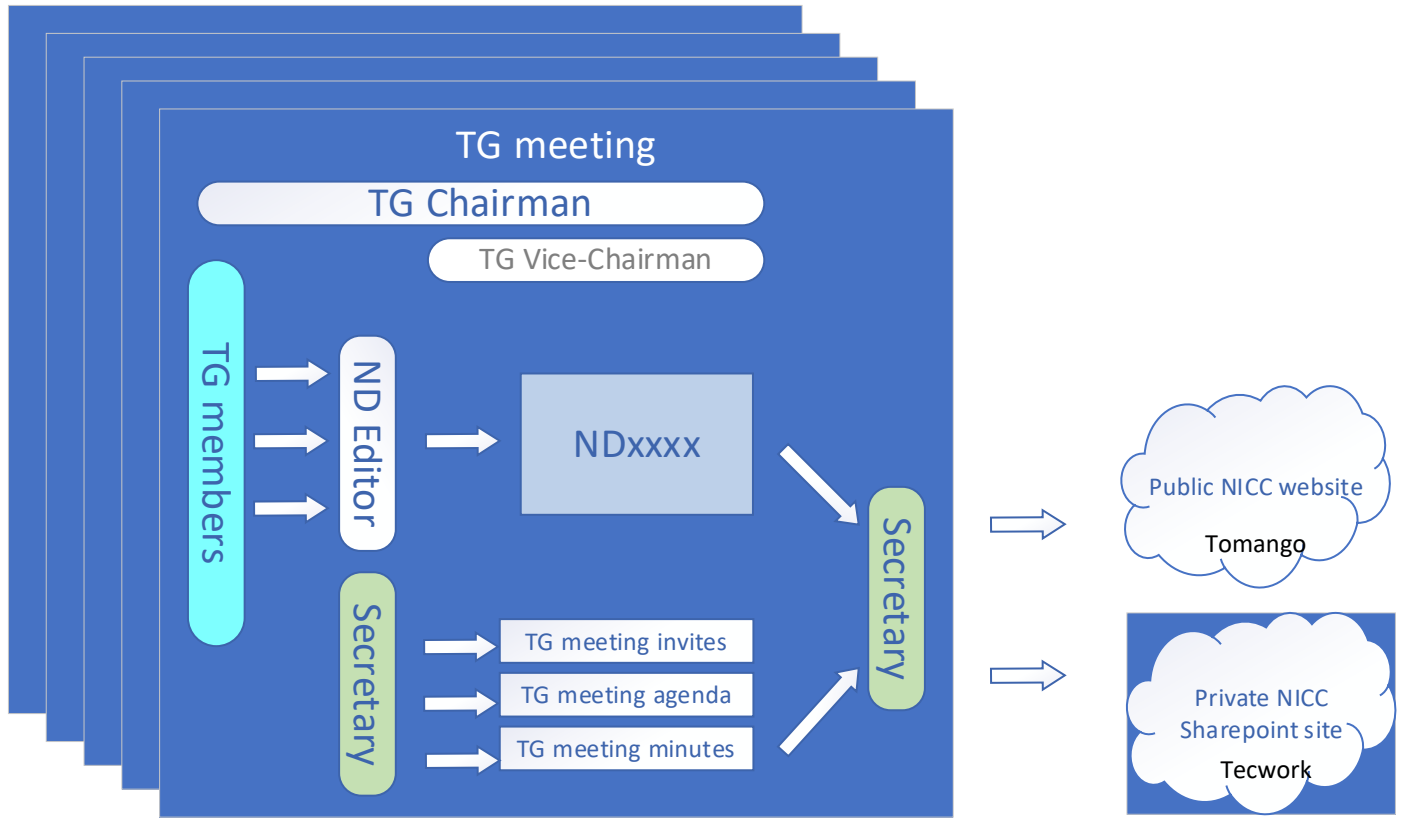

- Guidelines for Security of All-IP Service in the UK telecommunications network
- Overload Control for SIP in UK Networks and other associate NDs
- VoIP Call Routeing between UK Networks
- Report into implementation of Secure Telephone Identity Revisited (STIR) in the UK
- NICC Standards Ltd. members' response to incoming Telecom Security Requirements
- Guidance on blocking of inbound international calls with UK Network Number as CLI

**And updated a significant number of NDs, including -**

- End-to-End Network Performance Rules & Objectives for the Interconnection of NGNs
- Requirements on Communications Providers in relation to Customer Line Identification display services and other related services

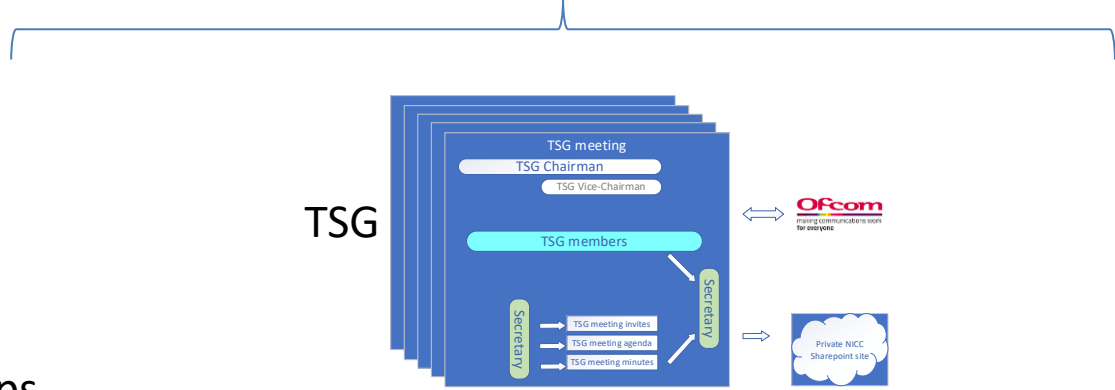

# Who Does All of The Work?

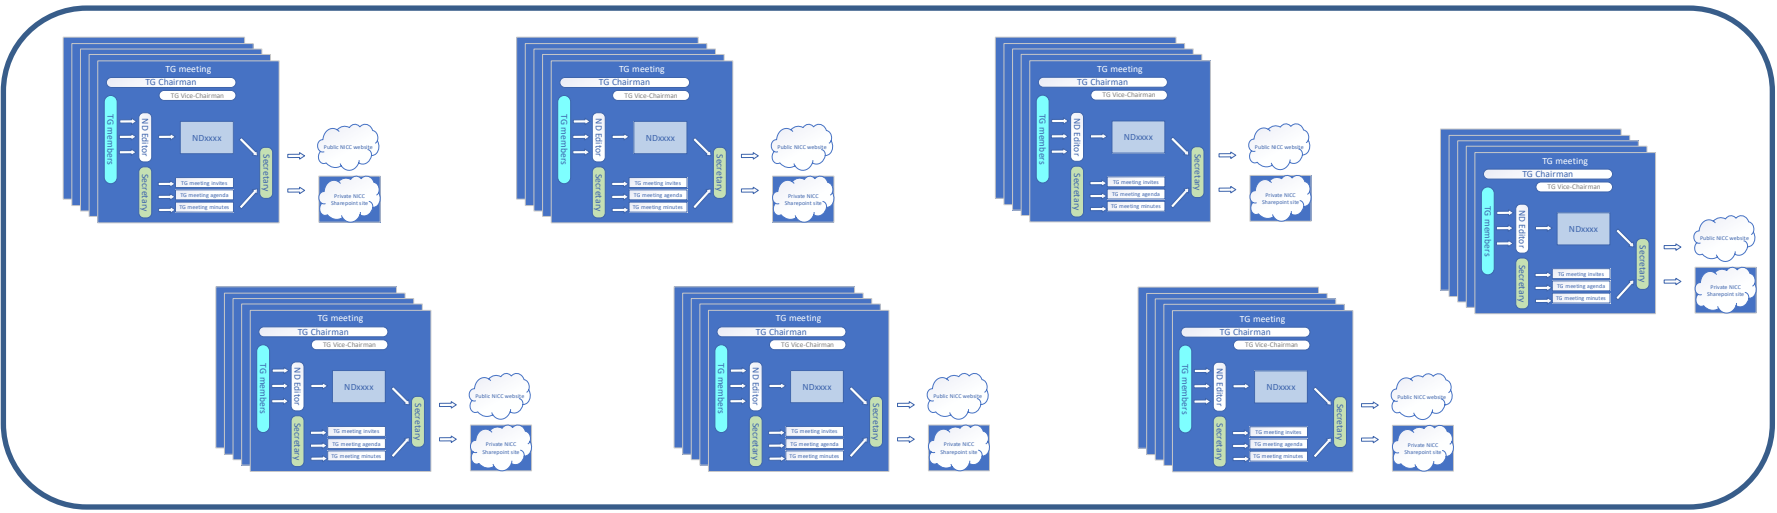

# Thank You

## NICC Board

## Task Groups

## Task Group Attendance is falling

- Some well-respected SMEs are retiring
- More budgetary pressure on Communications Providers
- Fewer people doing the job – more difficult to attend
- We need new people to join the task groups

## Why should you get involved?

A fantastic opportunity to grow your personal brand:
