# SIP Task Group

**TG chair: Donald Murray**

**Presenter: Martin Simmonds, TSG chair**

- TG remit covers signalling for voice call and service establishment
- Circa 10 meetings per year
- Recent focus has been on development of ND1037 (SIP<->UK ISUP interworking)
- ND1037 expected to move to approval phase at next meeting on 24<sup>th</sup> November
- Future deliverables include SIP Implementers Guide (ND1442) plus protocol aspects for STIR and Emergency Location

## ISSUES

- Limited attendance
  - Possibly due to limited relevance of ND1037
- Limited number of contributors

## PLAN

- Use completion of ND1037 and start of 2022 as an opportunity to review working model
- Dedicate time at a TG meeting to consult on ways to improve
