# Open Forum 2021

16th November 2021

# All IP Task Group

**Pasquale Exius-Genco (BT)**

The All IP Task Group has focused on the following aspects of the migration of voice services from Legacy TDM to IP :

- End to End network performance - What does a good quality voice call need?
- Industry lessons captured and shared
- Advice we can offer to CPE manufactures to minimise the effects of a move to IP
- Voice architecture documentation for IP networks
- How do you secure an ALL IP Voice network

# Questions?

Thank You
